Your responsibilities:

- Responsibility for supply processes, from coordinating requirements through to the provision of materials, as well as their further development in collaboration with customers, logistics, Purchasing, Project Management and Engineering
- Operational management of customer projects by coordinating supply requirements with customers and internal departments, creating picking lists and placing orders
- Ensuring material availability by monitoring delivery dates and quantities, identifying bottlenecks at an early stage, and coordinating appropriate measures
- Clarifying and tracking up on discrepancies, missing parts, quantity discrepancies and complaints, as well as developing sustainable solutions to prevent recurring discrepancies
- Analysing and optimising existing processes, deriving and implementing improvement measures, and defining requirements for the ERP system

Your profile:

- Completed commercial or technical training (e.g. apprenticeship, HTL, HAK)
- Several years' professional experience in materials management, logistics, work planning, production planning or a comparable production-related field
- Very good knowledge of MS Office (particularly Excel) and experience with ERP systems
- Good technical understanding and a strong grasp of processes and organisation
- A structured, independent and solution-oriented approach to work
- Strong communication skills, assertiveness and a passion for cross-functional collaboration
- Excellent written and spoken German and English

What you can expect:

- A variety of projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialities
- Option to work from home
