Your responsibilities:

- Clarifying technical requirements with the relevant internal and external contacts
- Designing assemblies using 3D CAD, taking into account internal manufacturing technologies
- Creating 2D production drawings
- Compliance with internal and external standards, regulations and design guidelines (e.g. DIN 1090)
- Compliance with quality requirements and processes
- Optimisation of workflows

Your profile:

- Completed technical training, e.g.: Technical draughtsman with at least 3 years' experience (comparable to HTL or HTL level...)
- Experience in using 3D CAD systems (Creo Elements/ Direct Modelling an advantage)
- A structured, systematic and independent approach to work
- Good written and spoken Czech and English; knowledge of German an advantage

What you can expect:

- An interesting working environment within a motivated team
- A strong, international company with a secure order book
- 5 weeks' annual leave
- Company events, break areas, a canteen
- State-of-the-art work equipment
- High-quality protective equipment and workwear
- Opportunities for professional development within an industrial company offering all the benefits of a family-run business
