Do you want to work in Austria whilst also experiencing the USA? Then you've come to the right place!

Your responsibilities:

- Carrying out electrical installations in technical containers at the plant in Austria and, several times a year, for a few weeks in the USA
- Fitting cable trays and installing cables and wiring for the power supply
- Distributing electrical circuits within the container facility, as well as wiring and installation
- Cabling switchgear
- Testing the systems for functionality and compliance with safety standards

Your profile:

- Completed technical vocational training in the electrical sector (preferably as an electrician)
- Confident in reading circuit diagrams and possessing a good technical understanding
- Ability to work independently whilst also being a team player
- Willingness to travel for recurring international installation assignments lasting several weeks (mainly in the USA, but other countries are also possible)
- Very good written and spoken German and good written and spoken English

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a close-knit corporate culture
- Canteen serving regional specialities

Does this job appeal to you? Then apply now – we look forward to getting to know you!

For this full-time position, a gross salary starting at 3,300 euros (plus attractive allowances for overseas assignments) is offered. We are happy to offer a higher salary depending on your professional experience and qualifications.
