Your responsibilities:

- Assembly work for the construction and completion of technical containers
- Bonding and screwing together various materials
- Installation and connection of cooling systems and cooling water pipes
- Installation of customer equipment (e.g. control cabinets, gas engines)
- Preparation of the container unit for dispatch
- Collaboration with other departments within the company

Your profile:

- Completed technical vocational training, preferably in the metalworking sector, or several years' experience in this field
- Professional experience as a metalworker, mechanical engineering technician, fitter or similar would be an advantage
- Technical understanding and good visualisation skills
- Ability to work independently whilst being a team player
- Willingness to work a two-shift rota
- Good command of German

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
