Your responsibilities:

- Planning, implementing, monitoring and optimising all operational processes in the areas of health and safety and environmental management.
- Preparation and compilation of reports and safety-related documentation
- Assistance with the preparation and maintenance of all safety-related documents, such as risk assessments, emergency plans, fire safety plans, training materials, etc.
- Organising and delivering safety briefings
- Drafting of training materials as well as operational and behavioural instructions
- Support in the implementation of and compliance with statutory regulations and internal guidelines in the field of occupational safety
- Support in the implementation of EN ISO 45001

Your profile:

- Completed technical training (HTL, FH, workshop foreman, etc.)
- Several years' professional experience in a comparable role, ideally in an industry-related environment
- Completed training as a safety officer
- Completed training as a fire safety officer; waste management officer or hazardous substances officer would be an advantage
- Independent, structured and systematic approach to work
- Proficiency in MS Office
- Very good command of German and good command of English

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialities
