**T** +43 7248 62794 466

**VIEW JOB ONLINE**

#### **Your responsibilities:**

- Providing technical and disciplinary leadership and driving the development of the Industrial Engineering team, including defining clear objectives and responsibilities
- Analysing, optimising and further developing production and logistics processes, as well as workstations and equipment, in accordance with lean management principles
- Layout planning at workstation and plant level, and across sites where required
- Planning, managing and monitoring industrialisation projects through to the successful start of series production
- Developing and maintaining a standardised process for determining and managing target times
- Evaluation and integration of new technologies to increase efficiency along the value chain
- Further development of shop floor management and ensuring a safe, clean and efficient working environment
- Promotion of a motivating working environment and a culture of continuous improvement (Operational Excellence)
- Acting as a sparring partner for managers in the production and logistics departments

#### **Your profile:**

- Completed technical training (HTL, FH or university) or equivalent qualification with several years' professional experience in a manufacturing company
- Several years' experience in industrial engineering, a production environment or process optimisation, ideally in mechanical and plant engineering or metalworking
- Leadership experience and a passion for working with teams
- In-depth knowledge of lean management, process optimisation and project management
- Understanding of production processes and manufacturing organisation
- A structured and independent approach to work, strong communication skills, assertiveness and a distinct hands-on mentality
- Confidence in using ERP systems and very good knowledge of MS Office; Power BI is an advantage
- Very good written and spoken German and good written and spoken English

#### **What you can expect:**

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: fruit, company doctor, gym subsidy, ...
- Opportunities for professional development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialities
- The chance to play an active role in shaping the company's future
