Your responsibilities:

- Carrying out electrical installations in technical containers at the plant
- Fitting cable trays and installing cables and wiring for the power supply
- Distributing electrical circuits within the container facility, as well as wiring and installation
- Cabling switchgear
- Testing the systems for functionality and compliance with safety standards

Your profile:

- Completed technical vocational training in the electrical sector (preferably as an electrician)
- Ability to read circuit diagrams accurately and a good technical understanding
- Ability to work independently whilst being a team player
- Good command of German
- Career starters are welcome – we'll support you as you get started

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialties

Does this job appeal to you? Then apply now – we look forward to getting to know you!

For this full-time position, a gross salary starting from 2,950 euros is offered. We're happy to offer a higher salary depending on your professional experience and qualifications.
