VIEW JOB ONLINE

As part of a major international project, a new logistics centre is being established in Ort im Innkreis to supply our assembly site in the USA. During this set-up phase, you'll have the opportunity to play an active role in shaping processes and take on responsibility right from the start.
The site plays a central role throughout the entire supply chain: from goods receipt through to storage, order picking and dispatch preparation, you will work with the team to ensure a smooth flow of materials. The final assembly of the technical containers then takes place at the US site.

Your responsibilities:

- Technical and managerial leadership of the goods-in team in logistics
- Ensuring smooth day-to-day operations (coordination of deliveries, unloading, goods receipt, complaints, and storage)
- Working closely with relevant departments (Purchasing, Quality Assurance, Production Planning, etc.) to ensure optimal material flow control
- Responsibility for managing and further developing the processes in goods-in
- Further development of the team as well as existing structures and processes
- Implementation of lean methods and shop floor management, as well as compliance with safety guidelines

Your profile:

- Successfully completed vocational training (apprenticeship, foreman's qualification, A-levels), ideally in the field of logistics
- Initial management experience in a shop floor environment
- In-depth knowledge of logistics within a manufacturing company (e.g. warehouse logistics, production supply, material flow)
- A hands-on approach combined with a structured and proactive way of working
- A process-oriented way of thinking and acting
- Experience of and interest in the application of lean methods and digitalisation
- Proficiency in using MS Office, ERP systems and logistics-related software
- Very good written and spoken German and English

What you can expect:

- The opportunity (following a training period of several weeks in St. Georgen near Grieskirchen and at the current external site in the Kirchdorf/Krems) to play an active role in setting up the site in Ort im Innkreis, to contribute your own ideas and to jointly develop processes
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
