Your responsibilities:

- Production programme planning (high-level planning) in coordination with the operational divisions
- Operational planning and management of customer and production orders in the ERP system
- Acting as the central point of contact for coordinating deadlines across the value chain
- Preparing and coordinating data for planning meetings (capacity forecasts, bottlenecks, ...)
- Maintenance, organisation and further development of planning-relevant data in the ERP system
- Collaboration in the design and optimisation of planning and control processes and systems

Your profile:

- Completed technical education (e.g. HTL, FH) with a focus on industrial engineering, Operations Management, Supply Chain Management or equivalent – or, alternatively, relevant prior experience
- Professional experience in production planning or a good understanding of processes within a manufacturing company
- A strong aptitude for working with data and excellent analytical skills
- Strong communication skills, the ability to work well in a team and assertiveness, combined with a confident manner
- Proficiency in using ERP systems and very good knowledge of MS Office, particularly Excel
- Very good written and spoken German and good written and spoken English

What you can expect:

- A variety of projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for professional development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialties

Does this job appeal to you? Then apply now – we look forward to getting to know you!

For this full-time position, a gross salary starting from 3,800 euros is offered. We are happy to offer a higher salary depending on your professional experience and qualifications.
