### Your responsibilities:

- Supervising and liaising with the mechanical assembly team for our technical container systems
- Responsibility for organising the team's workload and ensuring that completion deadlines and quality standards are met
- Monitoring compliance with safety regulations as well as order and cleanliness in the workplace
- Assembly of components and sub-assemblies into modules and complex systems
- Collaboration with other departments within the company

### Your profile:

- Completed technical vocational training, preferably in the metalworking sector
- Several years' professional experience as a metalworker, mechanical engineering technician, fitter or similar
- Foreman's qualification and initial management experience would be an advantage
- At least 3–5 years' professional experience in similar fields
- Technical understanding & good visualisation skills

### What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Opportunities for development in a successful industrial company with a family-like corporate culture

Does this job appeal to you? Then apply now – we look forward to getting to know you!

For this position, a gross salary of €3,900 is offered on a full-time basis. We are happy to offer a higher salary depending on your professional experience and qualifications.
