Your responsibilities:

- Responsibility for the product group area covering contract-manufactured components based on in-house drawings and external production processes
- Carrying out procurement market analyses, as well as developing and expanding the supplier portfolio with a focus on long-term and strategic business relationships
- Drawing up and implementing efficient supplier and product group strategies, taking into account the best possible quality, supply security and price
- Independent planning of tenders, conducting negotiations and professional contract management
- Liaising with relevant departments within the company, such as Engineering, Quality Assurance, Work Planning, Project Management and Sales
- Active risk, complaint and claim management
- Helping to design and develop relevant KPIs to improve the control and optimisation of procurement processes

Your profile:

- Completed technical training (apprenticeship | HTL)
- Professional experience in technical procurement (ideally in the steel and mechanical engineering sectors) with a strong focus on quality and cost
- Expertise in the application of modern procurement tools and methods
- Technical understanding (welding, sheet metal and bending technology) with strong negotiating and assertiveness skills
- Team player with good communication skills, as well as entrepreneurial and analytical thinking
- A proactive personality with a precise and structured approach to work
- Proficiency in MS Office and ERP systems
- Very good written and spoken German and English
- Willingness to travel to a limited extent

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialties
