Your responsibilities:

- Supporting the Controlling department in the creation and further development of reports, dashboards and analyses
- Preparing, structuring and analysing data from various internal systems
- Helping to create and optimise Power BI reports and other BI solutions
- Supporting data modelling and visualisation
- Working closely with Controlling and line organisations to support data-driven decision-making

Your profile:

- Currently studying Business Informatics, Data Science or a comparable subject
- Initial practical experience in using data analysis tools (e.g. Power BI, Excel, SQL)
- Basic programming skills would be an advantage
- Understanding of business contexts
- Analytical thinking, combined with a structured and independent approach to work
- A strong aptitude for numbers and an interest in data and its interpretation
- Very good written and spoken German and good written and spoken English

What you can expect:

- A variety of projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for professional development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialities
- Option to work from home (max. 1.5 days per week)

Does this job appeal to you? Then apply now – we look forward to getting to know you!

A gross salary of 2,950 euros is offered for this full-time position. We are happy to offer a higher salary depending on your professional experience and qualifications.
