Your tasks:

- Execution of electrical installations in our technical containers (in the factory)
- Assembly of cable ducts and installation of cables and lines for power supply
- Distribution of circuits, wiring and installation within the container systems
- Cabling of switchgear (low and medium voltage)
- Testing the systems for function and safety standards

Your profile:

- Completed technical vocational training in the electrical field (preferably as an electrician)
- Master craftsman's examination an advantage
- At least 3-5 years of professional experience as an electrician
- Reading circuit diagrams and technical understanding
- Independent working style combined with the ability to work in a team
- Good German language skills

You can expect:

- Varied projects in a motivated team
- Modern work equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Development opportunities in a successful industrial company with a familiar corporate culture
- Canteen with regional delicacies
