#### Your tasks:

- Technical leadership, organisation and development of a motivated design team
- Capacity planning
- Securing deadlines and deadline tracking
- Optimisation & standardisation of design processes
- Clarification of technical requirements with the responsible internal and external interfaces
- Control of compliance with internal and external standards, regulations and design guidelines e.g. DIN 1090
- Creation of and compliance with quality requirements and processes
- Optimisation of workflows
- Constructive support for local production

#### Your profile:

- Completed technical education (comparable to HTL)
- At least 5 years of professional experience in the design of steel and plant construction
- Experience in using 3D CAD systems (Creo Elements/ Direct Modelling an advantage)
- Leadership experience (team size 3-5 people)
- Structured, systematic and independent way of working
- Czech and English spoken and written, German an advantage

#### You can expect:

- An interesting working environment in a motivated team
- A strong, international company with a secure source of orders
- Leave entitlement for 5 weeks
- Company events, rest areas, cafeteria
- State-of-the-art work equipment
- High-quality protective equipment/work clothing
- Development opportunities in an industrial company with all the benefits of a family business
