## VIEW JOB ONLINE

As a **painting technician**, you paint machine parts, vehicles and equipment. You will ensure that the surfaces are properly cleaned, levelled, sanded and primed before painting. You will work with state-of-the-art technology to ensure top quality.

#### Your training content at a glance:

- Preparing surfaces - cleaning, sanding and masking
- Painting components and surfaces using modern painting processes
- Working with paints, varnishes and coating materials
- Operating painting systems and tools
- Quality control and working safely in accordance with environmental and safety regulations

You will gain an insight into practical work from the very beginning and learn to take on responsibility step by step.

#### Your strengths:

- A precise way of working
- Design skills
- Working in a team

#### You can expect:

- An interesting working environment in a motivated team
- Modern work equipment and laundered work clothes
- Numerous special benefits (canteen, fruit, doctor, gym allowance, ...)
- Development opportunities in an industrial company with all the advantages of a family business
- Convenient public transport including public transport ticket
- . Public transport ticket
- Team activities and workshops
- Support with learning
- Possibility of an apprenticeship with Matura

**Start of apprenticeship:** September 2026

**Duration of apprenticeship:** 3 years
