As a **metal worker**, you are responsible for processing metal - by hand or with machines - and assembling entire components from individual parts. You will work with various techniques such as filing, drilling, turning, etc.

An overview of your training content:

- Machining metal parts - e.g. sawing, drilling, grinding and bending
- Manufacturing and assembling simple components
- Working with machines and hand tools in the workshop
- Reading simple technical drawings and plans
- Working safely in compliance with quality and safety regulations

You will gain an insight into practical work from the outset and learn to take on responsibility step by step.

Your strengths:

- A precise way of working
- Manual skills
- Working in a team

You can expect:

- An interesting working environment in a motivated team
- Modern work equipment and laundered work clothes
- Numerous special benefits (canteen, fruit, doctor, gym allowance, ...)
- Development opportunities in an industrial company with all the advantages of a family business
- Convenient public transport including public transport ticket
- . Public transport ticket
- Team activities and workshops
- Support with learning
- Possibility of an apprenticeship with Matura

Start of apprenticeship: September 2026

Duration of apprenticeship: 3 years

The apprentice salary (gross per month) according to the collective agreement for the metalworking industry is as follows Collective agreement for the metalworking industry:

1st year of apprenticeship: EUR 1,071.00

2nd year of apprenticeship: EUR 1,295.40

3rd year of apprenticeship: EUR 1,657.50

Good performance at vocational school and in the final apprenticeship examination pays off with us and is rewarded accordingly.

Do you like this apprenticeship? Then apply now with your last certificate, a CV and a letter of motivation (Why are you applying for this apprenticeship at Gföllner?). We look forward to getting to know you!
