Your tasks:

- Management and control of incoming goods, warehouse management and order picking across all warehouse areas as well as internal transport
- Responsibility for stock levels and the annual inventory
- Leading and developing a logistics team of around 25 employees
- Optimising and ensuring systematic warehousing and optimal production supply
- Organisational development through competence building in the area of logistics/warehousing
- Collaboration with all interfaces in daily business (purchasing, AV, production, shipping/packaging, etc.)
- Implementation of digitalised processes and application of lean management methods in the area of warehouse management

Your profile:

- Successfully completed training (foreman, Matura or degree), ideally in logistics
- Multiple years of management experience in logistics, ideally in the manufacturing industry or plant/mechanical engineering
- . in plant/mechanical engineering
- In-depth know-how in warehouse processes, inventory management and internal transport
- Proactive, independent personality with a strong team orientation and strong communication skills
- Entrepreneurial thinking and a structured, fact-based approach paired with a high level of goal and solution orientation
- Knowledge of ERP/warehouse management systems and an interest in digitalisation and lean logistics

You can expect:

- Varied projects in a motivated team
- Modern work equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Development opportunities in a successful industrial company with a familiar corporate culture
- Canteen with regional delicacies
- The opportunity to actively help shape the future of the company
