VIEW JOB ONLINE

Your tasks:

- Design of technical modules for the energy sector
- Clarification of the technical requirements with our customers (in coordination with project management)
- Conversion of the specifications into a design construction in 3D and 2D
- Clarification with the internal specialist departments (project management, AV, purchasing, production...) for project implementation
- Creating production-ready drawings and supporting the technical documentation
- Creating workshop drawings

Your profile:

- Completed technical training (apprenticeship as a technical draughtsman, HTL, ...)
- At least 5 years of professional experience as a CAD designer
- Experience in working with 3D CAD systems (ideally Creo Elements/Direct Modelling)
- Experience in working with ERP systems
- Independent, structured and systematic way of working
- strong ability to work in a team with a strong focus on implementation
- very good written and spoken German and good English skills

You can expect:

- Varied projects in a motivated team
- Modern work equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Development opportunities in a successful industrial company with a familiar corporate culture
- Canteen with regional delicacies
- The opportunity to actively help shape the future of the company
