Your tasks:

- Control and timely completion of production orders, including checking bills of materials, material and labour costs
- Ensuring uniform commercial processes, guidelines and standards
- Operative post-calculation of customer projects and production orders for precise cost control
- Collaborating closely with the plant management and various departments (work preparation, production, logistics, purchasing, sales, controlling) to ensure smooth processes
- Proactive coordination with controlling at the headquarters in Austria
- Ongoing evaluation of semi-finished products
- Support in budget planning, reporting and cost control
- Collaboration in the further development and application of ERP systems

Your profile:

- Completed commercial training or business studies
- Professional experience in a manufacturing company, ideally in the metal sector
- Very good understanding of commercial processes
- Sure handling of MS Office and common ERP systems
- Structured and precise way of working, paired with a proactive, communicative personality
- Hands-on mentality with strong implementation skills
- Good language skills in German and/or English

You can expect:

- A stable environment in an international company with a secure order volume
- An interesting working environment in a motivated team
- Holiday entitlement for 5 weeks
- Company events, further education and training
- Development opportunities in an industrial company with all the benefits of a family business
- High-quality modern work equipment, work clothing and protective equipment
- Modern working environment and well-equipped production halls
- Pet-friendly workplace
