For a major international project (annual project volume of around 100 million euros), you will play a key role in managing our supply chain: based in Upper Austria, you will be responsible for the entire material supply of our assembly site in the USA and develop it strategically.

You will ensure the reliable delivery of kits - from scheduling and procurement to on-time delivery along the entire supply chain.

Your tasks:

- Overall responsibility for kit supply, including budget planning, ongoing cost control and ensuring the economical and efficient use of resources
- Managing and continuously optimising the supply chain from procurement to shipping, including material and goods flow
- Ensuring the timely supply of construction kits in the agreed quality and quantity
- Coordination and agreement with internal and external stakeholders on requirements as well as packaging and ordering processes
- Responsibility for personnel planning and management in the area
- Close coordination with project management and the specialist departments involved to ensure smooth processes and improve the flow of goods

Your profile:

- Technical or commercial training (university of applied sciences/degree, or comparable qualification)
- Multiple years of professional experience in supply chain management an advantage
- Multiple years of experience in managing large-scale projects
- Leadership skills, organisational strength and hands-on mentality
- Very good knowledge of German and English

You can expect:

- Varied projects in a motivated team
- Modern work equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Development opportunities in a successful industrial company with a familiar corporate culture
- Canteen with regional delicacies
- The opportunity to actively help shape the future of the company
