Your tasks:

- Technical and disciplinary management of the equipment design team
- Coordination and prioritisation of tasks with the team
- Further development and optimisation of existing working methods and processes in equipment design
- Coordination of technical requirements with internal specialist departments (production, technology, work technology)
- Implementation and assurance of production-oriented design, incl. Creation of 3D models and 2D drawings and support for prototypes
- Further development and optimisation of existing equipment

Your profile:

- Completed technical education (HTL, FH...)
- Multiple years of professional experience in equipment design or fixture design
- Experience in working with 3D and 2D CAD systems (ideally Creo Elements/Direct Modelling, AutoCAD)
- Ideally experience in leading teams or in project management
- Independent, communicative and systematic way of working
- Very good German and good written and spoken English

You can expect:

- Varied projects in a motivated team
- Modern work equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Development opportunities in a successful industrial company with a familiar corporate culture
- Canteen with regional delicacies
- The opportunity to actively help shape the future of the company
