Your tasks:

- Responsibility for the product group area of contract manufacturing components according to in-house drawings and external work processes
- Conducting procurement market analyses, as well as developing and expanding the supplier portfolio with a focus on long-term and strategic business relationships
- Creating and implementing efficient supplier and product group strategies, taking into account the best possible quality, security of supply and price
- Responsible for planning tenders, conducting negotiations and professional contract management
- Interface with the relevant departments in the company such as engineering, quality assurance, work preparation, project management and sales
- Active risk, complaint and claim management
- Co-design and development of relevant KPIs for better control and optimisation of procurement processes

Your profile:

- Completed technical training (apprenticeship | HTL)
- Professional experience in technical purchasing (ideally in steel and mechanical engineering) with a high level of quality and cost awareness
- Know-how in the application of modern purchasing tools and methods
- Technical understanding (welding, sheet metal and bending technology) with strong negotiating skills and assertiveness
- Team player with communication skills, as well as entrepreneurial and analytical thinking
- Proactive personality with a precise and structured way of working
- Sure handling of MS Office and ERP systems
- Very good written and spoken German and English
- Willingness to travel to a small extent

You can expect:

- Varied projects in a motivated team
- Modern work equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym allowance, ...
- Development opportunities in a successful industrial company with a familiar corporate culture
- Canteen with regional delicacies
