Are you keen not just to manage systems, but also to actively improve processes and help shape the digital transformation of a modern industrial company? Then join our IT team! As an IT project manager for our DMS systems, you'll act as the key link between production, business departments and IT, and play a key role in the further development of our IT system landscape.

Your responsibilities:

- Further developing and maintaining our DMS and PDM systems
- Supporting specialist departments in using and optimising the systems
- Maintenance and management of document, product and master data
- Support with system updates, testing and customisation
- Management of interfaces between ERP, DMS and PDM systems
- Preparing reports, documentation and materials for user training

Your profile:

- Completed IT training (apprenticeship, HTL, degree) or equivalent qualification
- Initial professional experience in managing IT projects
- Good knowledge of working with DMS systems
- Proactive approach and understanding of production processes and data structures
- An analytical, structured and solution-oriented approach to work
- Strong communication skills and a passion for collaborating with different departments
- Very good written and spoken German and good written and spoken English

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialities
- Option to work from home (max. 1.5 days per week)

Does this job appeal to you? Then apply now – we look forward to getting to know you!

A gross salary of 3,500 euros is offered for this full-time position. We are happy to offer a higher salary depending on your professional experience and qualifications.
