Your responsibilities:

- Further development and design of our IT system landscape and architecture
- Analysis, optimisation and integration of existing systems and processes
- Planning and implementation of infrastructure, cloud and application solutions
- Collaboration on and technical management of digitalisation and IT projects
- Definition of IT standards, interfaces and security requirements
- Development of technical concepts and provision of advice to business units
- Collaboration with internal departments and external IT partners
- Active involvement in the strategic development of our IT

Your profile:

- Completed IT training or a degree with a focus on IT
- Several years' professional experience in the IT sector, ideally in a technical or conceptual role
- Good knowledge of IT infrastructure, networks, cloud solutions and system integration
- Understanding of business processes and enterprise applications (e.g. ERP, DMS or PDM/PLM)
- An independent, structured and responsible approach to work
- Strong communication skills and a passion for collaborating with different departments
- Good written and spoken German and English

What you can expect:

- An interesting working environment within a motivated team
- State-of-the-art work equipment
- Numerous additional benefits (canteen, fruit, medical services, gym subsidy, ...)
- Opportunities for professional development in an industrial company with all the benefits of a family-run business
- Canteen serving regional specialities

A gross salary of 3,800 euros is offered for this full-time position. We are happy to offer a higher salary depending on your professional experience and qualifications.
