Is quality more to you than just a checklist item? Do you want to further develop standards, eliminate the root causes of errors in the long term and work with the specialist departments to improve product and process quality? Then take on a key role in our company.

Your responsibilities:

- Technical and organisational management of the Quality Management, Quality Assurance and IMS departments
- Ensuring and continuously improving product and process quality
- Processing, analysing and following up on customer, supplier and internal complaints
- Application and facilitation of quality methods such as 8D, Ishikawa, FMEA or 5 Whys
- Planning, conducting and supporting external and internal audits
- Development and evaluation of quality-related key performance indicators and derivation of improvement measures
- Close collaboration with production, design, procurement and project management

Your profile:

- Completed technical training (HTL, FH, university or equivalent qualification)
- Experience in managing a quality assurance department within a manufacturing company
- Knowledge of the relevant ISO standards and common quality management methods
- Analytical and structured approach to work
- Assertiveness combined with strong communication and teamwork skills
- Good command of German and English

What you can expect:

- A variety of projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture
- Canteen serving regional specialities
- The opportunity to play an active role in shaping the company's future

Does this job appeal to you? Then apply now – we look forward to getting to know you!

For this full-time position, a gross annual salary starting at 85,000 euros is on offer. We are happy to offer a higher salary depending on your professional experience and qualifications.
