As part of a major international project, a new logistics centre is being built in Reichersberg to supply our assembly site in the USA and other international customers. During this set-up phase, you'll have the opportunity to play an active role in shaping processes and take on responsibility right from the start. The site plays a central role throughout the entire supply chain: from goods receipt through to storage and order picking, right through to dispatch preparation, you will work with the team to ensure a smooth flow of materials. The final assembly of the technical containers then takes place at the US site.

Your responsibilities:

- Assisting with the establishment and further development of the incoming goods inspection department for purchased parts
- Carrying out incoming goods, outgoing and in-process inspections in accordance with internal and customer-specific specifications
- Drawing up work instructions, documentation and test reports
- Operating measuring equipment and optimising test methods
- Handling complaints, non-conformance analyses and initial sampling
- Working closely with production, warehouse and procurement
- Carrying out acceptance inspections at suppliers' premises

Your profile:

- Completed technical training (e.g. HTL, apprenticeship in the metalworking sector)
- Professional experience in steel construction (quality assurance, production or technical testing) required
- Knowledge of reading technical drawings, metrology and standard testing procedures
- Knowledge of quality methods or non-destructive testing an advantage
- Quality awareness, accuracy and a structured approach to work
- Proficiency in MS Office and ERP systems
- Very good written and spoken German and good written and spoken English

What you can expect:

- The opportunity to play an active role in shaping the development of the Reichersberg site, to contribute your own ideas and to jointly refine processes
- A variety of projects within a motivated team
- Modern equipment and well-equipped production halls
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for professional development within a successful industrial company with a family-like corporate culture

Does this job appeal to you? Then apply now – we look forward to getting to know you!
