Do you enjoy working with metal and have experience in welding? Then you've come to the right place!

For our **Vehicle Construction** department, you will manufacture and machine metal components and structures in accordance with technical drawings. You'll carry out welding work, prepare workpieces and ensure that the work is carried out to a high standard whilst adhering to our quality standards.

Your responsibilities:

- Carrying out welding work in accordance with technical drawings and work plans
- Welding of metal components and structures (MAG, MIG, TIG)
- Operating welding equipment and tools
- Preparing workpieces and materials, as well as tack welding, grinding and straightening
- Finishing components in accordance with drawings

Your profile:

- Completed apprenticeship as a metal technician, metalworker or a comparable technical qualification
- Knowledge of welding techniques (MAG, MIG, TIG) and metalworking (grinding, cutting, drilling)
- Valid welding certificates to DIN EN ISO 9606-1
- Crane operator's licence (travelling and gantry cranes) would be an advantage
- Good written and spoken German

What you can expect:

- Varied projects within a motivated team
- Modern equipment and well-equipped production halls
- Canteen serving regional specialities
- Numerous additional benefits: Fruit, company doctor, gym subsidy, ...
- Opportunities for development within a successful industrial company with a family-like corporate culture

Does this job appeal to you? Then apply now – we look forward to getting to know you!

For this full-time position, a gross salary starting from 3,000 euros is offered. We are happy to offer a higher salary depending on your professional experience and qualifications.
